WILL YOU SPEND \$2 TO SAVE YOUR HAIR?

How many hard-earned dollars have you spent to save your hair? How many hair tonics, conditioners, restorers, chemical dressings, have you tried in the last few years — with no success? How many times after an unsuccessful hair growing attempt have you sworn not to spend an other cent on another hair treatment?

Yet you buy the next product that comes on the market with hair-growing claims.

CAN YOU GROW HAIR?

Doctors who have spent a life time studying hair and hair growth have concluded that nothing new known can grow hair on a bald head. So if you are bald, prepare to spend the rest of your life that way. Accept it philosophically and quit spending hard-earned dollars on hair geymers.

If you can't grow hair—what can you do? Can you stop excessive hair loss? Can you save the hair you still have? Can you increase the life expectancy of your hair? Probably.

Please read every word in the rest of this advertisement carefully, since it may mean the difference to you between saving your hair and losing the rest of it to eventual baldness.

HOW TO SAVE YOUR HAIR

Many scalp, hair loss, dandruff, very dry or oily scalp, are symptoms of the body disease called ichthyosis. These scalp symptoms are often warnings of approaching baldness. Not every case of ichthyosis results in baldness, but doctors now know that men and women who have this scalp disease usually lose their hair.

Ichthyosis is hereditary and caused by three poisonous germ organisms (*Microphythoecus albus*, *pythovirum* and *marthovirus*). These germs first infect the sebaceous glands and later spread to the hair follicles. The hair follicles atrophy, no longer can produce new hairs. The result is "itching" scalp and baldness.

DOUBLE MONEY BACK GUARANTEE

In essence, Ward's Formula tells the three germ causing scalp symptoms to stand normal hair growth. This has been proven in scientific tests by a world-famous testing laboratory. Copies of laboratory reports sent on request. Ward's removes infection dandruff stops scalp itch brings hair nourishing blood to the scalp, tends to make hair very dry or oily scalp. In fact Ward's Formula prevents the early symptoms of ichthyosis, stops the hair loss it causes. Ward's Formula has been tried by more than 100,000 men and women on our famous

Double Your Money-Back Guarantee. Only 1/2% of those men and women were not helped by Ward's and asked for their double refund. This is a study on amazing performance. Treat your scalp with Ward's Formula. Try it at our risk. In only 10 days you must see and feel the marked improvement in your scalp and hair. Your dandruff must be gone. Your scalp itch must stop. Your hair must look thicker, more attractive, and shiny. Your excessive hair loss must stop. You must be completely satisfied—in only 10 days—with the improved condition of your scalp and hair, or simply return the unused portion for Double Your Money Back. So why delay? Delay may cost your hair.

MAKE MONEY, TOO!

There are a number of other factors that can affect the results of a survey. For example, the way the questions are asked can influence the responses. The order of the questions can also be important. The time of day and the location of the survey can also affect the results. It is important to be aware of these factors and to try to control them as much as possible.

Title: The Role of the Teacher in the Development of the Moral Reasoning of the Student
Abstract: The author discusses the role of the teacher in the development of the moral reasoning of the student. He argues that the teacher should not only be a role model but also a facilitator of the student's moral development. He suggests that the teacher should create a classroom environment that is conducive to the development of the student's moral reasoning. He also discusses the importance of the teacher's own moral development in this process.
